Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 June 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 9, 2005 has been entered.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 2, 38, 43-45, 51 and 53 are rejected under 35 U.S.C. 102(e) as being anticipated by US Patent 6,057,165 to Mansour.

Mansour teaches an assay device for collecting and testing biological samples.

The device comprises a base (45) having a composition material (41) onto which a biological sample is disposed. The base having the biological sample is considered to be a "carrier". The carrier mates with a cover portion (46). The cover portion has an aperture (48), which is a conduit running from the top of the cover to the bottom of the cover. When the cover is mounted onto the base, the sample carrier closes the bottom part of the conduit and forms a reservoir. The portions of the carrier on both sides of the conduit are not in communication with the conduit. In fact a part of the cover covers a portion of the carrier and excludes a part of the carrier from being in communication with the conduit. See figure 5 labeled below. Mansour further teaches that a well (10) may be mated with cover at the conduit for delivering fluids into the conduit (col. 12, lines 1-7).

Allowable Subject Matter

3. Claims 3, 4, 25-37, 39-42, 46-50 and 52 are allowed, as set forth in the previous Office Action.

Response to Arguments

4. Applicant's arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection.
